**Description**

The National Education Policy (NEP) 2020 aims to transform the Indian education system by providing high-quality education to all, at every level. Under the aegis of NEP, various changes are being made to school education to shift towards a competency-based approach in curriculum, pedagogy, and assessment on a high-priority basis. Several initiatives have already been taken towards transforming the teaching-learning process at the school level to promote competency-based learning and education. These initiatives are increasingly incorporating innovative pedagogies in classrooms and prioritizing developing competencies through education.

STEP 1: Click the button to start the registration process.
